RESOLUTION

To consider and if thought appropriate, pass the following resolutions:

Resolution 1:

That the manager have authority to sell liability free New Zealand Units as deemed appropriate.

Background to resolution:

Since we secured liability free NZUs for your forest we have sold sufficient each year to cover the annual cost of running your forest, thus eliminating share calls.

The price of NZUs has fluctuated from an introductory price of \$20 to a low of \$1.55 following the GFC. NZUs are currently trading at around \$17-\$18. No one really knows what is going to happen to the price of carbon in the future.

It has been suggested by some that the government may re-introduce foreign carbon units which would lower the cost of the New Zealand units. The contrary to this is that New Zealand has emissions targets to meet as part of the Paris Accord on climate change so the NZU price may rise as New Zealand implements rules to achieve this.

The reality is that no one knows what is going to happen to the NZU price moving forward. Given the history of the ETS it would seem the greatest risk to the price of NZUs is political risk, be it international or local.

The updating of this resolution allows us the option to sell down more NZUs as appropriate.

Our thinking at this stage is that we lock in at the present NZU prices and sell down enough NZUs to cover the estimated running costs through to harvest. If we receive more market information implying that NZU prices will fall then this resolution allows us to sell further NZU's, hopefully before the price falls.

The sale of NZUs to cover forest costs through to harvest would incur a tax liability. We propose to sell enough NZU's to cover partners' tax costs and this portion of the proceeds would be paid out to partners.

It should be noted that the New Zealand NZU market is quite thin, large volumes of NZU's if traded can move the market quite significantly.

Resolution 2:

Funds earned from sale of NZUs be held in an interest bearing account and be used to meet future partnership operating expenses as required.
