CARRIED

It was noted the NZU sales shown in March are a drawdown of funds from the partnerships investment account where funds from the sale of NZUs are held. It is to cover the tax partners are required to pay on the sale of NZUs. It is also shown as a distribution, to partners, in April. Any further amounts shown on the NZU sales line during the year are not further sales but are draw downs from the investment account. The balance of funds remain in the interest bearing investment account (as shown in Financial Statements) to cover ongoing holding costs thus eliminating share calls as voted for in 2017.

GENERAL BUSINESS

ETS (Emissions Trading Scheme)

William Dickie gave attendees an update regarding the ETS. The Government announced the ETS will be reviewed in late 2019 and there seems to be a general consensus within the industry that further upside in the price of carbon is likely given the Green influence in the coalition. The manager continues to monitor the market.

Log Markets

There was an update on the outlook for log markets in the short to medium term. Overall, momentum remains robust in China, log offtake from the ports is up to 100,000m³ per day with log inventories sitting between four and five million cubic meters. Exchange and shipping rates had increased slightly.

Health and Safety

It was discussed that this is a significant factor in the forestry industry. The forest managers are being very proactive in this space to ensure best practice from all contractors in our forests.

Secondary Market

We have had very little to offer on the secondary market with no secondary sales for 4 months. We have a good number of existing partners who have registered an interest in securing additional investment. Partners looking to secure additional Partnership Interests or divest were advised to contact the office.

MEETING CLOSED: 3:00pm
